Ordinance Establishing New Zoning District: Mixed-Use Overlay District 2

The MXD2 regulations would provide standards for **developing or redeveloping properties in the Planned Commercial (C2) zoning district only**. The MXD2 includes **a number of exceptions to the underlying C2 district requirements** in order to provide flexibility in site design for mixed-use developments and promote the intent of the MXD2 regulations. This includes promoting a diverse mix of land uses on properties located near existing commercial and residential areas, redevelopment of underutilized commercial properties and growth in places that are most conducive to accommodating additional development, opportunities for small-scale or locally-owned businesses, aesthetically pleasing developments with consistent architectural themes, bicycle and pedestrian-oriented buildings and facilities and connections to and from surrounding properties, access to public transit, shared parking facilities to reduce impervious cover and encourage effective management of stormwater runoff, affordable housing, and public gathering places for public celebrations.

The MXD2 overlay regulations would only be eligible to be applied to properties zoned C2 that are at least 20 acres in size, and any developer intending to apply the standards must affirm their intent in writing.

*****Ordinance Revisions:** *The revised ordinance (May 23, 2018) offers incentives to encourage MXD2 developers to provide more affordable housing than the required minimum 5% of residential units - up to an additional 5% of the total units. These include 1.) one additional market-rate unit for each additional affordable unit, 2.) exemption of all additional units from the maximum density requirements of the MXD2, and 3.) 1,500 ft² of extra impervious coverage allowance for each additional affordable unit.* ***

Ordinance Rezoning Subject Properties to C2 + MXD2

The Board is considering **rezoning two properties** located at 1752 North Atherton Street, totaling approximately 28 acres, from C1 and R3 to C2 with the MXD2 overlay district. The properties are listed below and shown on the enclosed map.
