**Patton Township Announces delays to the
Valley Vista Drive Left Turn Lane Project**

Patton Township, Centre County, PA (November 21, 2018) – Today Doug Erickson, Patton Township Manager, announces that completion of the **Valley Vista Drive Left Turn Lane Project** will be delayed until Spring of 2019. The extremely wet weather of the past 6 months necessitated additional excavation work and stone backfill, and the relocation of a gas main, to achieve a stable base for the roadway widening.

The Township's contractor, HRI, Inc., will continue to work on the project this fall, as weather permits, to complete the installation of the base and binder asphalt paving courses. The installation of the final top course of pavement and the remaining drainage facilities will be completed in the Spring.

Work zone barricades will remain in place over the winter. Please continue to use caution when traveling through the work zone.

Questions and comments can be directed to the Patton Township Public Works Department at 234-0271 or publicworks@twp.patton.pa.us.
